When you find a clip you like, drag it from the website to your document. If it doesn't appear, try to drag the clip from the site to your desktop--then to your document.

As find collect clip art you like, create a folder to save your clip art in. Then, to insert a clip from this folder, hold down Option-and click to make a copy of the clip to insert into your document.

To rotate a graphic

- put pointer on a corner
- hold down command--pointer will change to a curved arrow
- click and drag to rotate

To wrap text around a graphic

- open the Inspector
- click on the Wrap Inspector (third icon)
- make sure the graphic is selected (click on it if not)
- choose wrapping style
